To whom it may concern:

We hereby confirm that **Sebastian Schneider (Bielefeld University)** participated in the 3rd **Summer School on Social Human-Robot Interaction**, organised in Vila Nova del Milfontes, Portugal between Sunday 3 September and Friday 8 September 2017.

The summer school offered a program of lectures and workshops:

– What can we learn from robots? Robots as tutors (Tony Belpaeme, Plymouth University)
– Deep Learning: A Shallow Tutorial (André Martins, Unbabel/Lisboa IST)
– Toward Autonomous Social Robots in the Wild (Iolanda Leite, KTH Stockholm)
– Human Cognition in Social HRI (Serge Thill, University of Skövde/Plymouth University)
– Using Robots to Study Humans (Alessandra Sciutti, Italian Institute of Technology)
– Experimental Human-Robot Interaction (Paul Baxter, University of Lincoln)
– Interactional Intelligence for Artificial Conversational Agents (Hendrik Buschmeier, Bielefeld University)
– Human-Robot Interaction Strategies for Assistance and Rehabilitation (Carlos Cifuentes, Colombian School of Engineering Julio Garavito, Colombia)
– Face-to-Face Conversation with Socially Intelligent Robots (Mary Ellen Foster, University of Glasgow)
– Bringing even more social in social HRI (An Jacobs, Vrije Universiteit Brussel)
– Intentions in HRI (Tom Ziemke, University of Linköping)
– Designing Robots for HRI (Bram Vanderborght, Vrije Universiteit Brussel)
– Groups of humans and robots together (Ana Paiva, INESC-ID)
– Interactive Learning and Teaching with Robots (Manuel Lopes, IST Lisboa)
– Workshop: Pitch and presentation techniques (Margarida Antunes)
– Workshop: Building the OPSORO social robot (Jelle Saldien, Cesar Vandervelde, Ghent University)
– Workshop: Robot Animation: Principles and Practice (Tiago Ribeiro, INESC-ID)
– Workshop: Interactive Machine Learning (Brad Hayes, MIT/University of Colorado Boulder)
– Workshop: The Nao robot in HRI (Alexandre Mazel, Softbank Robotics)
– Workshop: Robot improv design (Patrìcia Alves Oliveira, Margarida Antunes, Ana Paiva, INESC-ID)
– Workshop: Fatima: implementing emotional behaviour on social robots (João Dias, Samuel Mascarenhas, INESC-ID)
– Workshop: Co-creation and other methods to study HRI (An Jacobs, Shirley Elprama, Vrije Universiteit Brussel)

Yours truly,

Prof Dr Tony Belpaeme (Plymouth University/Ghent University)

Prof Dr Serge Thill (Plymouth University/University of Skövde)

Prof Dr Bram Vanderborght (Vrije Universiteit Brussel)
